

## OBSERVER ROLE: MODERNA

The Moderna COVID-19 Vaccine is a suspension for intramuscular injection administered as a series of two doses (0.5 mL each) 1 month apart.

### CONTRAINDICATION

- *Do not administer the Moderna COVID-19 Vaccine to individuals with a known history of a severe allergic reaction (e.g., anaphylaxis) to any component of the Moderna COVID-19 Vaccine.*

### OBSERVATION:

Postvaccination Observation Times for Persons without Contraindications to COVID-19 Vaccination

- 30 minutes: Persons with a history of an immediate allergic reaction of any severity to a vaccine or injectable therapy or a history of anaphylaxis due to any cause
- 15 minutes: All other persons

***Observe for any immediate allergic reactions defined as any hypersensitivity-related signs or symptoms, such as urticaria, hives, angioedema, respiratory distress (e.g., wheezing, stridor), or anaphylaxis. If any symptoms are observed, activate plan to contact emergency medical services immediately***

I have reviewed the just in time training procedure listed above
