

OBSERVER ROLE: **JANSSEN**

The Janssen COVID-19 Vaccine is a 0.5 mL intramuscular injection administered as a onetime dose.

CONTRAINDICATION

- *Do not administer the Janssen COVID-19 Vaccine to individuals with a known history of a severe allergic reaction (e.g., anaphylaxis).*

OBSERVATION:

Postvaccination Observation Times for Persons without Contraindications to COVID-19 Vaccination

- 30 minutes: Persons with a history of an immediate allergic reaction of any severity to a vaccine or injectable therapy or a history of anaphylaxis due to any cause
- 15 minutes: All other persons

Observe for any immediate allergic reactions defined as any hypersensitivity-related signs or symptoms, such as urticaria, hives, angioedema, respiratory distress (e.g., wheezing, stridor), or anaphylaxis. If any symptoms are observed, following the Adverse Reaction Standing Order and activate plan to contact emergency medical services immediately

I have reviewed the just in time training procedure listed above
